What can football teach us about the wider world?

In the news this week

The men's FIFA World Cup 2022 has started in Qatar and will run until 18th December. It is the 22nd edition of the competition, and the first played in the Arab world. The 64 matches of the tournament will take place across eight venues in the country. Usually, the event takes place in summer but because of the extreme heat at that time of year, it has been moved to a November-December winter slot, though temperatures will still reach about 25°C. The decision to stage the tournament in Qatar has been criticised because of concerns over the country's poor treatment of the large number of workers from other countries, employed to help them prepare for the tournament.
